Important information DS 28

Technical details:

Power supply: 110 V / 60 Hz

Bulb socket: E12

Protection class: I

Maximum wattage (thermal):

40 W

Recommended bulbs:

energy-saving bulb 9 W
candle-type bulb 40W clear

Note:

This specified maximum wattage applies to conventional bulbs. Since these have however been off the market since 01.09.2009, we recommend energy-saving bulbs with about 1/5 of the specified wattage.

Halogen bulbs are not suitable because these become much hotter than conventional bulbs.

Safety instructions:

- Never cover the luminaire with a cloth – fire hazard!
- Always ensure that the plug is removed from the socket before working on the luminaire or changing the bulb.
- Have repair work performed only by an authorized electrician, because electrical power can cause severe injuries!
- Some of the lamp components may get very hot in operation! Avoid skin contact with these components to prevent burns.

Care of lamp:

For the chrome plated parts use a chrome polish.

For cleaning the brass parts, treated with zapon, please only use a cotton wool.
